DETAILED ACTION

Claim Objections

1. Claim 29 objected to because of the following informalities:

line 1, "member" should be "spring".

Appropriate correction is required.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 30 recites the limitation "the retaining plate" in line 1. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 19, 22, 25, 26, 28, 29, and 31 are rejected under 35 U.S.C. 102(b) as being anticipated by Winter (DE 19705803).

Winter discloses a brake pad and brake piston assembly including a brake piston having an outer surface encircled by a circumferential groove (see Fig. 2) a retaining spring 4 coupled to a brake pad, wherein the retaining spring engages the circumferential piston groove thereby

Art Unit: 3683

detachably coupling the brake pad to the piston, wherein the retaining spring includes at least one spring element having a first portion 4d which urges the brake pad against the piston and a second portion 4c which applies a spring force to the brake pad in a direction which is generally perpendicular to an axis of travel of the piston.

Re claim 19, see carrier plate 1 and friction lining 6.

Re claim 22, see Fig. 1, the portion of the spring near "6" in the Figure has a corresponding portion on the other side of the piston.

Re claims 25, 26, 28, and 29, see Fig. 2.

Response to Arguments

5. Applicant's arguments with respect to claims 19, 22, 25, 26, 28, 29, 30, and 31 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Art Unit: 3683

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
